SCHOOL SUPERINTENDENT'S REPORT.

To the Piermont School Board:

Our schools have been in session this year, thirty-three weeks, except in East Piermont, where the winter term is omitted. The percent. of attendance has been above the average in most schools, and only at Clay Hollow, has the school had to close for stormy weather or sickness. Measles did its work so thoroughly last year that we have had no epidemic to hinder the work. As the term is not finished at the Rodimon and Clay Hollow districts, the record of attendance, etc., is not complete.

We have purchased copies of the Colonial History of New Hampshire and a few new reading books, so that the supply now seems fully adequate to our needs, and for the coming year not so large an appropriation should be raised for supplies, in my opinion.

I am disappointed that the slate blackboards which are ordered have not yet arrived. They are sent direct from the quarries in Pennsylvania and the severe winter may have caused the delay. When they do arrive the village schools and River Road No. I. will have the long needed improvements. The River Road No. I. school house needs to be re-shingled this year, otherwise our school houses are in good condition.

One feature of the schools in our town that we can be justly proud of is the excellent reading from the first grade through to the ninth. I congratulate the teachers on the success of their efforts.

Here is one of my experiences: A parent complained to me that he thought it unjust for the teacher to keep his son in at-recess for a week or more just for mis-spelling a word, and dropping a pencil on the floor. He wanted his son to be obedient, and was perfectly willing to have him punished if he was not. I promised to look into the matter. My next visit was within a few days and when recess time came this boy (whom we will call Isaac) remained in with two others. Without consulting the teacher I called Isaac to me and the following conversation took place:

Supt.—What are you staying in for, Isaac?"

Isaac.—"To write my spelling words."

Supt.—"What else are you staying in for?"

Isaac.—"Because I stayed out sliding."

The teacher here explained that these three boys stayed out sliding twenty minutes after the recess bell rang one afternoon and

were losing their recesses a week to make up, and "while they were in they wrote their spelling words if they had mis-spelled any.

Supt.—"You told your father you stayed in to write spelling words; why didn't you tell him about the coasting?"

Isaac.—"I did."

Supt.—"Is your father deaf, so that he didn't hear about the coasting?"

Isaac.—"He is a little deaf; I don't think he heard me,"

Supt.—"Do you think you can speak loud enough to make your father hear that you are staying in recesses for one week because you did not come in when you heard the bell, and that you write spelling words to fill in the time?"

Isaac.—"Yes."

Supt.—"Will you promise to make it right with your father?"

Isaac.—"Yes."

Isaac is a good boy, but boys will be boys, and don't you parents take their complaints too seriously.

For next year I recommend to the School Board that the pupils in the Brook Road district be carried to the village school, and that a comfortable wagon be provided. This I recommend for two reasons: The smallest children have a very long walk to the Brook Road school, and would be carried hardly any farther to the village; also there is not a family in the district now sending children of school age, that has not in recent years kept children away from that school, in somecases in defiance of the law, because they were dissatisfied with the teacher provided by the School Board.

We were sorry to lose Miss Sheehan's good teaching from the intermediate room in the village, but the misunderstanding about her salary could not be adjusted, and there was no opportunity for her to take the New Hampshire State examinations till next June. This difficulty will be avoided by the printed contracts which the Board have for use in hiring teachers in the future.

This winter term has been exceedingly hard for school visiting because of the cold and very windy weather, and in some districts drifted roads. The whole number of visits made by the Superintendent, however, is 73. I wish to thank the School Board for their help and friendliness.

Respectfully submitted,

LOUISE S. HORTON.

REPORT OF LIBRARY TRUSTEES.

We feel as though our town report would not be quite complete without mentioning the library. Two years ago, and while a pastor of this place, the Rev. A. R. Crewe, now of Bradford, offered to catalogue the library free, but nothing was done. Last year our Superintendent of Schools, in her annual report, again mentioned the advantage to our teachers and scholars of having it classified and kept in order, and at the town meeting a vote was taken to raise fifty (50) dollars for that purpose. A new board of trustees was appointed, consisting of Ludelle Ames, Mamie H. Robie and Louise S. Horton. The services of Miss Alethea Meader, of Lewiston, Me., were engaged to catalogue and put in shape the books. It was found the room in the town hall reserved for the library was not adequate. The rooms formerly occupied by the New England Telephone Co. were rented of H. E. Morrison, making a nice reading room, and one room for books alone. Mrs. J. O. Evans was engaged as librarian. Through the generosity of a friend, ten dollars was handed to the trustees to help keep the library open more hours, as a test, to see if the public would take advantage and make more use of the books and magazines at their disposal. Miss Eva Metcalf was chosen assistant librarian. The library has been open Tuesday afternoon and evening, Friday afternoon and evening, also the usual Saturday afterday. This has been done without any extra expense to the town, as more money given by our friend and other friends have contributed that, with one entertainment has defrayed the expense of extra help. There have been over sixty new books bought, and some of the best magazines of the day have been contributed. From November 1st until the present time there have been 1125 books loaned, averaging about 75 per week. We feel as though the test has proved a success, and we sincerely hope there will be means to continue what has just commenced.

SUPERINTENDENT'S REPORT

TO THE PIERMONT SCHOOL BOARD:

In spite of a long drawn out epidemic of mumps, and another of chicken pox well started, our schools have been busy and have done good work this year.

There were nine schools in session in the spring term, eight in the fall term, and six are in session this winter, but the term will not end till March. The East Piermont and Rodimon districts will have had twenty-seven weeks in two terms, and all the others will have thirty-five weeks in this financial year now ending, but only thirty-three in the school year ending in June. The plan is to have a long fall term of fifteen weeks, and a winter and spring term of nine weeks each, so that the spring term will neither begin in mud time nor end in hot weather. In order to shorten the spring term the winter term has been made longer than usual this year. From now on the plan can continue with thirty-three or thirty-four weeks in both financial and school year.

Many have asked the age at which pupils may be allowed to leave school. The law was changed in 1913 and as it now stands children must attend school until they have reached the age of sixteen, or have completed the grammar school course. That is, children are not compelled to attend school after completing the grammar school course whether they have attained the age of sixteen or not.

The New Hampshire Program of Studies has been followed for several years now, and the monthly reports sent by each teacher to the superintendent show that our schools are together in their studies and both in the small districts and in the village schools are following this course closely.

During the year eleven teachers have been employed. We hope the six now teaching will finish the year, and several have signed contracts to that effect; their work is above the average without exception both in discipline and and instruction.

Our State Superintendent, Mr. Morrison, is very emphatic in his statement that each school building should be a model in its district for appearance and proper care. With this in mind I would suggest a coat of paint for both River Road 1 and 2. Of course it is the most economical

way in the end not to wait till the boards are completely exposed to the weather before painting.

Personally I hope the bill will pass which will undoubtedly come before this session of the legislature, making district supervision compulsory, as I believe such a trained supervisor can do best work for the town. In case this does not become a law, I am willing, if desired, to finish out this school year. In any case I can say at the end of five years of work in the schools that I could wish my successor nothing better than the same delightful co-operation which I have had with the school boards under whom I have worked, and the same kindly feeling and helpfulness of parents, teachers and pupils.

Respectfully submitted,

LOUISE S. HORTON.

MARTHA E. WORTHEN,
 LUDELLE AMES,
 S. H. AMES.

We have examined the foregoing account and find it correct.

F. FAYETTE WORTHEN,
 SAMUEL G. HANNAFORD.

THE STATEMENT FROM THE SCHOOL BOARD.

There were eight schools in session in the spring and fall, and seven this winter. The East Piermont school has had only eight weeks, as there has been no scholars of school age since the spring term closed.

The Rodimon district has had twenty-nine weeks, the children being small and living quite a distance from the school house. All the others have had thirty-three weeks.

Mrs. Worthen has made thirty-seven visits, Mrs. Ames forty-two and Mr. Ames one.

We urge parents to visit the schools.

REPORT OF LIBRARY TRUSTEES

We have received during the year \$30.96 from entertainments given for the benefit of the Library. At the request of the children, the money from their play was taken to buy books for them. And during the year the demand for children's books has been steadily growing, much to our satisfaction. We have now \$12 worth that will soon be ready for use.

Our Librarian is very glad to help the children with the selection of their books, and takes great pains with them.

SPRING TERM, 1916

To the Piermont School Board:

There were nine schools maintained in town for the last term of the school year 1916.

Twenty-eight visits were made to the various schools during the term. With few exceptions I found the teachers and pupils interested and zealous in their work, consequently good results were attained.

In six of the schools, nature study of birds and flowers, was made very interesting to the pupils, by the teachers.

The attendance in nearly all the schools was exceptionally good. Nine pupils in town had neither absent nor tardy marks for the year.

The largest number of pupils promoted in any grade was fourteen from the first. The work accomplished by all the first grade pupils in town is worthy of commendation.

Fifteen pupils, nine from the Village and six from the other schools, completed the work required by the State Course of Study. This was the largest class ever graduated in town.

Permit me to thank the Board, teachers, and pupils for the hearty cooperation I received in my work.

MARTHA L. CLARK,
 Supt. for 3d term of 1916.

SUPERINTENDENT'S REPORT

Having been appointed superintendent of your schools September 1st, 1916, allow me to present the following report:

Nine schools have been in session in different parts of the town. 101 pupils have been enrolled as follows:

Village Grammar,	17
Village Intermediate,	13
Village Primary,	15
Brook Road,	14
No. 1,	12
Back Road,	9
Turn Pike,	9
Clay Hollow,	8
East Piermont,	4

total 101

Five of last years graduating class are pursuing high school studies, two studying latin and three bookeeping.

Schools were in session fifteen weeks for the fall term with the exception of East Piermont and Turnpike schools. Owing to the distance the pupils were obliged to go, causing increased absences as the weather grew colder, it was thought advisable to close the former with a twelve weeks term. The Turnpike school was continued for eighteen weeks and has not been in session this winter.

It was planned to have a winter term of ten weeks which will necessitate their being in session three weeks after this report goes to press, so a complete report of the winter schools cannot be given.

A school has been opened on the Back Road, as an increase in the number of children in that locality seemed to make it more convenient than carrying to the village, as has been done for several years past.

The school on the River Road has been discontinued, as only two pupils were within the limits of the school. One of these attends the village school, the other receives instruction at home.

Five of our teachers are teaching their first schools, only one being a resident of this town.

The attendance of some of the schools was somewhat disturbed at the opening, as a result of the vaccination of the children, which was not attended to during vacation.

I made thirty-five visits to the schools during the fall term, visiting each four times, with the exception of East Piermont. This being the seventh week of the winter term, I have visited them twice each.

Most of the pupils are doing good work—some very

good—and still there are others, who with a little more interest and energy might do better. During my visits I have asked practical questions, and have advised teachers to make their teaching practical.

I wish the parents might show their interest (I do not doubt but they are interested) in the work of the schools by visiting them. I think there are less than six names of parents in visitor's columns, except when some special program had been prepared. We are always glad to have you come then, and would be fully as pleased to see you in the every day working of the schools. I know it is an easy matter to put off "visiting school," but if parents realized how much it meant to teachers and pupils, they would make an extra effort to be there often, as a support and stimulus to both.

Respectfully submitted,

JENNIE C. ANDROSS,
Superintendent.

The following pupils received Rolls of Honor for the fall term:

Arthur M. Ames	Shirley Page
Dale Ames	Ava Page
Ruth Childs	Ina Smith
Martin Day	Rescoe Smith

In order to meet the requirements of Chapter 129, Sec. 4, Laws of 1917, which requires all outstanding notes written on demand, to be retired before Jan. 1st, 1919. Demand notes to the amount of \$12,692.50 have been retired. This was accomplished in part by the issue of Serial notes as provided for in Chapter 129, Sec. 2, laws of 1917, and in part by the payment in full of some of the notes. This leaves the following notes (which are demand notes) to be provided for before January 1st, 1919:

Joseph Lawrence,	\$700
Jonathan Tyler Council,	200
M. Ella Braynard,	160
Althea Stanley estate,	300

There are two ways that funds to retire the above notes may be provided. One is to appropriate at our March meeting the amount needed. The other is to borrow on a Serial note or notes. Under the present conditions it is extremely doubtful if funds can be borrowed at a reasonable rate of interest if at all. The Serial notes which have been issued provide for the full payment of the present town debt (excepting as above) on January 31st, 1932. This meets the requirements of the present law as we understand it.

The law changing the ending of the fiscal year from February 15 to January 31st, caused some confusion and delay in settling up the town's affairs. The adoption of the uniform system of town accounting which is required by law, has been somewhat expensive to install, but the supplies furnished will be ample for several years and must be of value hereafter.

Following is a list of the Serial Notes issued:

REPORT OF SUPERINTENDENT OF SCHOOLS.

To the Inhabitants of the Town of Piermont, I present my second school report.

There were eight schools in session during the spring. At the close in June, nine pupils were graduated, four continuing their studies in the fall.

Eight schools were opened in September. 78 pupils enrolled, a decrease of a little more than 20% from one year ago.

Two schools retained the same teachers of the previous year, Miss Cook in the Primary, Miss Morrison in the Intermediate. Several families moving reduced the attendance in the village schools to thirty. At the close of the fall term it was thought best to close the Primary building, putting the children into two rooms, thereby eliminating the expense of one school.

The teacher in the Turnpike school could not return for the winter and as the school board was not able to find a teacher, no school has been in session. Only four pupils in the school they were permitted to take books from the school, so to study at home, as the parents were not willing to have them carried to other schools, on account of the distance.

In East Piermont were only two pupils and they were taught at home, twenty weeks, which plan was satisfactory to the parents and a saving to the town.

I am pleased to see more names of parents in the visitor's column, and hope they keep steadily increasing, as in no way can we manifest our interest in the work of the school, than by our presence there.

I regret the absence of the ninth grade in our schools, for I feel that the pupils certainly need the work of that grade, whether they enter High school or never go beyond the Grammar.

Schools have been in session 32 weeks, with two weeks more, but as the town calls for a report closing January 31st, I make it at this time. I have made 55 visits during the three terms. Owing to the extreme cold weather have not been able to visit as much this winter as usual, visited most of them twice, and intend to once more before they

close. At all times I have been shown courtesy and friendliness by teachers and pupils, and in return have tried to encourage and help, in my suggestions.

Respectfully submitted,

JENNIE C. ANDROSS.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board of the Piermont School District: As district superintendent, I am herewith presenting for your consideration a brief report for the first half of the school year of 1918-19.

Thus far my work has been mainly that of getting acquainted with the general school conditions, of putting good tools in the way of good books and supplies into the hands of the teachers, of checking up the daily program in each school and of advising and assisting teachers in regard to the many problems which arise from day to day. Nothing revolutionary has been undertaken. The educative process is of slow growth and the yearly result may not be startling but each year should see continuous progress in the way of higher standards of scholarship, of better attendance, of more adequate housing conditions, of higher grade teachers and of general school efficiency.

In general the text books were badly worn and out of date. As far as the appropriation allowed these have been replaced by the best modern texts. The new books include arithmetics, geographies and English texts for all grades, histories for grades 4, 7 and 8, and dictionaries for the rural schools. As far as possible the old books have been used for exchange in order to lessen expense. There is still need of new physiologies of histories for grades 5 and 6, of supplementary reading for all grades and of wall maps for use in geography and history. At present there are no usable maps in the district.

The total enrollment for the present year in the seven schools is 75. The largest number in any school is fifteen at Clay Hollow, the smallest 5 in the Rodiman school. Three of last year's teachers returned in the fall and Mrs. Martha Clough took charge of the Brook Road school in the winter, so that the district has the

advantage of four experienced teachers. Miss Higginbotham at Clay Hollow is a graduate of the Worcester Normal School. The problem of keeping competent teachers is a most vital one and the only solution is to advance salaries.

The average monthly salary for teachers in the town last year was \$38.37. This year it is \$45, an encouraging increase. In comparison with the wages of other kinds of labor at present we can not complain that our teachers are at all grasping, especially when we think of what is required of them in the way of refinement and education.

The average number of weeks in town schools last years was something less than 32. It is hardly reasonable to expect that under average conditions schools can accomplish as much in 32 weeks as other towns which have from 36 to 40 weeks. Perhaps this accounts for the fact that some pupils are unable to complete the elementary work in eight years.

It seems to me that there are at present excellent opportunities in Piermont for a partial consolidation of schools through transportation. The schools on the brook road and state road could easily and quickly be brought to the village where there is plenty of room. For the larger part of the year this could be done by motor bus or truck very satisfactorily. Success here would require comfortable and responsible transportation and careful and competent supervision during the noon hour.

I have found in Piermont some excellent teachers, capable and interested pupils and a public sentiment favorable to permanent progress.

Respectfully submitted,

NORMAN J. PAGE
